

Technical Notes

Installing the 64 bit Driver for Windows Vista/Windows 7

Tech Note Number: 666

Total number of pages: 8

Applicable Models: All AnaJet printers

Date: 2/2/2010

A. Download and Extract New Driver

- 1. From the AnaJet Tech Support website download the new driver. (AnaJet 64bit RIP Driver.zip)
- 2. Create a NEW FOLDER called inf64 on your desktop (right click anywhere on your desktop select NEW FOLDER).
- 3. Open the AnaJet 64bit RIP Driver.zip file and extract all contents to the NEW inf64 folder on your desktop.
- 4. Now you are ready to install the driver.

B. Installing New Driver

- 1. Plug in the USB cable to the computer and the printer and power up the printer at the rear and front.
- 2. Go to CONTROL PANEL
- 3. Click on DEVICE MANAGER
- 4. DEVICE MANAGER dialog will appear.

5. Click on ACTION then "Add legacy hardware"

"Welcome to Add Hardware Wizard" dialogue will appear

AnaletAdministr	
The wizard can help you install other hardware	
The wizard can search for other hardware and automatically install it for you. C know exactly which hardware model you want to install, you can select it from	Ir, if you a list.
What do you want the wizard to do? © Search for and install the bardware automatically (Recommended)
