The AnaJet mPower digital apparel printer represents an entirely new class of industrial-strength direct-to-garment printing.

With a vast line of extended media accessories, there is virtually no limit to what you can create!

AnaJet®
DEFINING DIGITAL APPAREL PRINTERS

Applications

EXTENDEDmedia™

There's no reason to stop at textiles; the AnaJet mPower also prints on wood, glass, tile and other flat surfaces.

You'll be able to print wood plaques, personalized tiles, glass artwork and more as easily as printing a standard t-shirt.

With the included specialized coating gel, the possibilities are endless in personalizing any special occasion gift item. These truly unique items will sell for much higher prices.

ARTprint™

AnaJet's ARTprint package option allows you to reproduce fine art on artists' canvas. Apply the ARTprint Texture Coat protective finish to create the look and feel of a real oil painting.

Turn class photos or favorite portraits into fine works of art. Capture those special moments like weddings and anniversaries to create a treasurable product offering.

With the mPower's ability to print 16.8 million digital colors, your photos will look stunning and in true-color. Only digital printing technology can deliver the high quality detailed printing capabilities you need to produce full color photos as fine art or on garments.

METALfoilTM

Create shirts that really sparkle with AnaJet's METALfoil printing capabilities! Foil application is simple and cost effective, and the end result is dazzling garments that will impress customers.

AnaJet's METALfoil is slightly transparent so the printed ink color underneath the foil will show through, creating colorful and shiny graphics that can sell for much higher prices. With four colors to choose from, the creativity is unlimited.

3D effects

The versatile AnaJet mPower can print images that come alive when viewed through appropriate 3D glasses.

It's as simple as applying a unique color spectrum to your image according to the easy-to-follow instructions and training you'll receive from AnaJet's Application's Department.

As promotional items or as a fun alternative to traditional digital graphic prints, AnaJet's 3D printing capabilities take it to the next level allowing you to expand your product line in ways never thought possible.

PHOTOshirts™

Print high quality photos directly onto shirts, tote bags, baby onesies and other items with AnaJet's PHOTOshirts package option.

With the mPower's ability to print 16.8 million digital colors, your photos will look stunning and true-color. Only digital printing technology can deliver the printing capabilities you need to produce full color photos on garments.

PROMOTIONAL items

Customized promotional products are hot ticket items for businesses, corporate team building, clubs, schools, sports leagues and various other organizations.

With the AnaJet mPower, you'll be printing custom promotional t-shirts, mouse pads, golf towels, koozies, aprons and more in just minutes.

With profitable small-run capabilities and a quick turnaround time, digital printing is the perfect tool for selling promotional products.
